

Frey Lumber Company Inc. is a hardwood manufacturing company. Founded by Emanuel Frey in 1949 and carried on by his son, James E. Frey Sr. The company has grown from a portable operation, to a permanent, state-of-the-art, automated sawmill, built by Frey Sr., constantly updated and improved for safety and efficiency.

James Sr., is personally involved in each phase of the operation, from felling timber in the woods, to manufacturing hardwood products on the sawmill, to the transporting of the finished products to the customers. He has devoted his life to this company and works hard to ensure its continued success! He personally communicates with every customer and their needs are always his top priority. If you choose Frey Lumber Company, you will find our customer service cannot be beat!

Hardwood Products

- Special order
- Blocking
- Pallets
- Treated lumber
- Grade lumber
- Veneer logs
- Mulch (natural/colored)
- Firewood (block/split)
- Sawdust

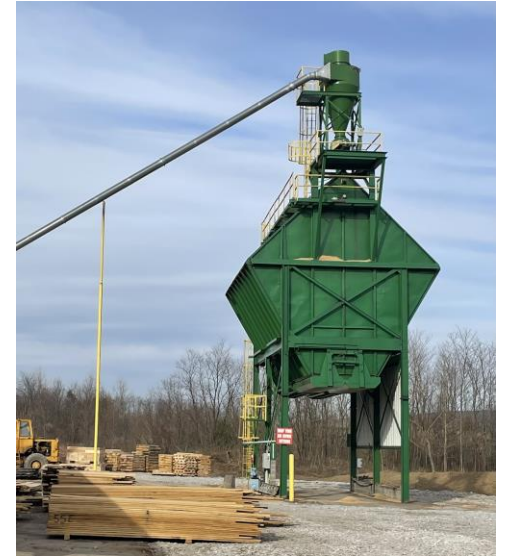

Frey Lumber can supply your rough-cut lumber needs. Our customers from Canada to Texas are greatly satisfied with our diverse assortment of quality hardwood lumber, which can be cut to your specifications.

Frey Lumber Company also stocks mulch (natural and colored), firewood (split and blocked) and of course sawdust! Retail and wholesale pricing available. Buying hardwood products directly from Frey Lumber Company eliminates 3rd party fees!

Mulch is stored on concrete pads to eliminate contamination by dirt and mud. Our sawdust is blown directly into the bin to reduce any dirt or excess matter.

Frey Lumber Company is a major purchaser of cut logs supplied by contracted cutters. The drive on scale on the premises allows you to know your exact weight for accurate payment at a per ton rate and we accept deliveries 24/7.

We produce lumber and pallets in 22 different species of Appalachian Hardwoods
